CAREER OBJECTIVE

I am a Frontend Developer skilled in building responsive and user-friendly websites. I aim to deliver clean designs that improve usability and performance. My goal is to enhance company growth while supporting long-term objectives.

SKILLS

Frontend Development: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, DaisyUI, Flowbite React

UI/UX & Tools: Figma, Pixso

Backend Development: Node.js, Express.js, MongoDB, REST APIs

Version Control & Deployment: Git, GitHub, Netlify, Vercel, Firebase

Soft Skills: Active Listening, Problem-Solving, Time Management, Adaptability, Continuous Learning

PROJECTS

TrustLife—Life Insurance Management Platform

[Live Demo](#) | [GitHub \(Client\)](#) | [GitHub \(Server\)](#)

Enables users to browse, compare, and purchase insurance policies with secure payment processing and an optimized user experience.

Major Features:

- Delivered a seamless application process by enabling instant premium quote generation for insurance policies.
- Engineered and integrated secure Stripe-based payment processing, ensuring safe and reliable premium transactions.
- Optimized operations by building an admin dashboard to efficiently manage blogs, policies, transactions, and users.

Tech Stack: React.js, Tailwind CSS, Flowbite React, Node.js, Express.js, MongoDB, Firebase Auth, Stripe API, React Query, Axios, SweetAlert2, React Hook Form

TripNest—Travel Package Booking Platform

[Live Demo](#) | [GitHub \(Client\)](#) | [GitHub \(Server\)](#)

Trip Nest enables travelers to explore, search, and book travel packages with an interactive and seamless experience.

Major Features:

- Enabled users to book, add, manage, delete, and confirm travel packages.
- Implemented search functionality to quickly find packages by name.
- Developed price-based filtering to help users identify suitable travel options.

Tech Stack: React.js, Tailwind CSS, DaisyUI, Node.js, Express.js, MongoDB, Firebase Auth, Axios, SweetAlert2, React Multi Carousel, Framer Motion

DishDiary—Recipe Sharing Platform

[Live Demo](#) | [GitHub \(Client\)](#) | [GitHub \(Server\)](#)

A digital recipe diary that allows users to manage personal recipes, mark favorites, and explore trending dishes

Major Features:

- Built functionality to add, edit, and manage personal recipes in a digital diary.
- Developed a dashboard providing users with an overview of their own recipes and the top-liked recipes.
- Created a discovery system to showcase top trending recipes based on community likes and engagement.

Tech Stack: React.js, Tailwind CSS, DaisyUI, Node.js, Express.js, MongoDB, Firebase Auth, SweetAlert2, React CountUp, React Simple Typewriter

EDUCATION

Master of Pharmacy (M. Pharm)

State University of Bangladesh—Dhaka, Bangladesh | 2016–2017

LANGUAGE

Bangla (Native), English (Fluent)
